

Gif-sur-Yvette, June 8th 2018

To whom it may concern,

This letter is to confirm my invitation to Dr Jiangli DONG to visit my laboratory at the Institute of Plant Sciences - Paris Saclay University (IPS2) from September 15th to 22th 2018 in the frame of the PHC Xu Guangqi 2018 project (project N°41256PH) managed by the French Foreign Office. For her visit, her travelling expenses, accommodation fees and everyday life will be covered by the project.

During her stay, discussions will be organized to set-up a bilateral project and plan experiments to be carried out respectively in the French and Chinese laboratories. This will also be the opportunity to give a seminar to the whole IPS2 institute on work carried out in the State Key Laboratory of Agrobiotechnology of the China Agricultural University (Beijing, China).

Sincerely yours,

IPS2 : Institut des Sciences des Plantes de Paris - Saclay
UMR Université Paris Sud - CNRS 9213 - INRA 1403
Université Paris Diderot - Université Evry Val d'Essonne
Bâtiment 630 - Plateau du Moulon - Rue Noetzlin
CS 80004 - 91192 GIF SUR YVETTE CEDEX
Tél : 01 69 15 33 00 - Fax : 09 72 56 10 74
Florian Frugier, PhD
