Prof. Feng Qin
China Agriculture University

December 18, 2025

Dear Prof. Feng Qin

On behalf of the Organizing Committee of the Korean Society of Plant Biologists (KSPB), it is my great pleasure to invite you to participate as a Plenary Speaker at the 2026 KSPB International Conference, which will be held from October 28 to 30, 2026, in Gyeongju, Republic of Korea.

The KSPB is the leading academic society representing plant biology research in Korea, and our biennial international conference serves as a major forum for presenting cutting-edge research and fostering global collaboration in plant sciences. The 2026 meeting will bring together researchers from diverse subdisciplines, including plant development, signaling, physiology, genomics, biotechnology, and plant–environment interactions.

In recognition of your outstanding contributions to plant sciences, we would be honored if you would deliver a Plenary Lecture, sharing your recent research insights with our audience.

With regard to financial arrangements, the hosting professor and the KSPB will jointly provide partial financial support, in accordance with conference policies. This support includes a lecture honorarium, accommodation, and registration waiver. Please note that airfare/flight tickets are not covered by this support. Further details regarding your travel arrangements, visit schedule in Korea, and any additional required information can be discussed directly with your hosting professor and the organizing committee.

We sincerely hope that you will be able to join us in Gyeongju, a historic city renowned for its cultural heritage, and contribute to the success of the 2026 KSPB International Conference.

Please feel free to contact us should you require any additional information. We would greatly appreciate receiving your response at your earliest convenience.

Thank you very much for considering our invitation. We very much look forward to the possibility of welcoming you to Korea.

Yours sincerely,

Tae-Wuk Kim, Ph.D.
Chair, Organizing Committee
2026 KSPB International Conference
Korean Society of Plant Biologists (KSPB)
